Indication of Dependent Care on Tax Return

- This bill eliminates the box on the Iowa return that asks whether your dependents have health care.
- **Fiscal Note** – None

Section by Section Analysis

Sections 1 through 3 – Income tax form — indication of dependent child health care coverage.
 These sections repeal the Iowa Code section that requires the Department of Revenue to put a box on the state return where an individual could indicate the presence or absence of health care coverage for their dependents. The change would be effective for tax year 2017 and thereafter.
